

BATALIUM® AMPED™ HERBICIDE: THE GOLD STANDARD

Wheat growers now have an all-in-one solution for convenient, high-performance weed control: BATALIUM AMPED herbicide. An industry-leading formulation with three leading modes of action yields long-lasting control of your toughest grass weeds like wild oats and green foxtail, in addition to dependable control of tough broadleaf weeds like kochia, common lambsquarters, and wild buckwheat — all from a convenient single use rate of 16 fl oz/A. Get amped for an unmatched finishing power to help keep your wheat fields clear all season.

ACTIVE INGREDIENTS AND MODES OF ACTION

- Flucarbazon-sodium, 0.028 lbs ai/A (Group 2)
- Fluroxypyr, 0.09676 lbs ae/A (Group 4)
- Bromoxynil, 0.26 lbs ae/A (Group 6)

FEATURES & BENEFITS

- Industry-leading formulation for optimized storage, handling and mixing
- Comprehensive combination of flucarbazon-sodium, fluroxypyr and bromoxynil for all-in-one weed control
- Three highly effective modes of action for optimized resistance management
- Broad-spectrum weed control + long lasting residual control of hard-to-kill grassy weeds
- Best-in-class crop safety
- Compatible with over 20 registered tank-mix partners

KEY WEEDS CONTROLLED

GRASSES

Barnyardgrass^{1,2}
Green foxtail
Japanese brome²
Wild oat¹
Yellow foxtail²

BROADLEAVES

Annual sowthistle
Jimsonweed
Kochia³
Lambsquarters, common
